

# LG HU710PW

LG HU710PW

A brief introduction to the HU710PW: The LG laser DLP projector offers 2000 Ansi lumens, a contrast of 2000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The service life is 20000 hours due to the laser, which would be the equivalent of over 13.7 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. The projector can illuminate a picture width of up to 454 cm thanks to its 2000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 303 cm. The projector has optional Airplay, Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. It is also Full HD 1080P and 4K compatible. With only 26 decibels of operating noise, the model is already very quiet compared to others.
