

HC300 ECO External HDD

## Eco-Friendly Storage On the Go

### HC300 ECO External Hard Drive

Do your part to save the environment. The HC300 ECO utilizes 35% recycled plastic to reduce plastic waste and lower carbon emissions by 48%. The drive features a generous 2TB capacity, a thin 10.3mm profile, and a beautiful verdant exterior design that outshines other products. In addition, exclusive ADATA shock sensor technology and Backup ToGo software make the HC300 ECO the most user-friendly mobile storage device!

#### Telling an Eco-friendly Story

The HC300 ECO's casing is made of at least 35% PCR (Post-Consumer Recycled) materials, which lowers carbon emissions by 48%, greatly reducing the burden on the environment during the production process.

#### Reduce, Recycle, Reuse

The HC300 ECO is designed to protect the earth, uses recycled plastics from sources such as disposable water bottles, and is FSC<sup>™</sup> (Forest Stewardship Council) certified, which significantly reduced carbon dioxide emissions, waste water, and energy.
