### Overview

## HP Z2 G9 Tower Workstation Desktop PC

- 1. HDD Activity LED
- 2. Power button
- 3. Universal audio jack (with CTIA & OMTP headset support)
- 4. (2) USB-A 10Gbps ports (1 charge port supports up to 5V/2.1A)
- 5. (2) USB-A 10Gbps rate ports

- 6. (1) USB-C<sup>®</sup> 20Gbps port (optional, charge supports up to 5V/3A)
- 7. SD card reader 4.0 (optional)
- 8. Slim ODD bay
- 9. External 5.25" bay

### **Overview**

rear

6.

- 1. (1) Audio Line-in jack (1) Audio Line-out jack
- 2. (2) DisplayPort 1.4 ports
- Flex I/O module: choose one from the following:
   (1) DisplayPort 1.4, (1) HDMI 2.0b, (1) VGA, (1) Dual USB-A 5Gbps port, (1) USB-C<sup>®</sup> 10Gbps port (Power Delivery 15W, Alt Mode DisplayPort), (1) 2<sup>nd</sup> 1 GbE LAN, (1) Thunderbolt 3
   with USB-C<sup>®</sup> / USB4 40Gbps \* (cabled to PCIe AIC\*\*) (1) 1Gbps Fiber LC NIC
- 4. (2) Hi-Speed USB-A 480Mbps port
- (2) USB-A 10Gbps ports
   (1) USB-A 5Gbps port
   (1) Hi-Speed USB-A 480Mbps port

\*Maximum speed requires DisplayPort<sup>™</sup> and PCIe aggregation. \*\*Thunderbolt support only in PCI-E slot4.

**NOTE:** Onboard Display support DP1.4/HBR2. Flex I/O module Display support DP1.4/HBR3. Resolution all support up to 5120x3200 24bpp @60Hz.

**Form Factor** 

Tower

#### **Operating Systems**

Preinstalled:

- Windows 11 Pro HP recommends Windows 11 Pro<sup>2</sup>
- Windows 11 Home HP recommends Windows 11 Pro<sup>2</sup>
- Linux<sup>®</sup>-ready<sup>5</sup>
- Ubuntu<sup>®4,5</sup>

## hp

#### c08109687 — DA 17012 – Worldwide — Version 45 — May 8, 2025

Page 2

- (1) WLAN Antenna (optional)
  - a. Internal
  - b. External
- (1) 1Gb LAN
- 2nd serial port (optional)
- Hood lock (optional)
  - Power connector

Overview

- Intel 12<sup>th</sup> generation processors will support and preinstall Ubuntu 20.02 and 20.04.
- Intel 13<sup>th</sup> generation processors support and preinstall Ubuntu 22.04 LTS

Web-supported only:

• Windows 10 Enterprise 64<sup>2</sup>

Supported Version:

- HP tested Windows 10, versions 20H2, 21H1, 21H2 and 22H2 on this platform. For testing
  information on newer versions of Windows 10, please see:
  <a href="https://support.hp.com/document/c05195282">https://support.hp.com/document/c05195282</a>.
- Red Hat<sup>®</sup> Enterprise Linux<sup>®</sup> Workstation 8<sup>6</sup>
- SUSE Linux<sup>®</sup> Enterprise Desktop 15<sup>6</sup>
- Ubuntu<sup>®4,5</sup>
  - Intel 12<sup>th</sup> generation processors will support and preinstall Ubuntu 20.02 and 20.04.
  - o Intel 13th generation processors support and preinstall Ubuntu 22.04 LTS

<sup>2</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.

<sup>4</sup> Not all features are available in all editions or versions of Ubuntu. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS to take full advantage of Ubuntu functionality. Ubuntu may be automatically updated. ISP fees may apply and additional requirements may apply over time for updates.

<sup>5</sup>A certified preloaded version of Ubuntu<sup>®</sup> 20.04 LTS is available from HP for this platform. Not all features are available in all editions or versions of Ubuntu. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS to take full advantage of Ubuntu functionality. Ubuntu may be automatically updated. ISP fees may apply, and additional requirements may apply over time for upgrades.

<sup>6</sup>For detailed OS/hardware support information for Linux, see: http://www.hp.com/support/linux\_hardware\_matrix

**NOTE:** Your product does not support Windows 8 or Windows 7. In accordance with Microsoft's support policy, HP does not support the Windows<sup>®</sup> 8 or Windows 7 operating system on products configured with Intel<sup>®</sup> and AMD<sup>®</sup> 7th generation and forward processors or provide any Windows<sup>®</sup> 8 or Windows 7 drivers on http://www.support.hp.com. A full list of HP products and the Windows 10 versions tested is available on the HP support website. https://support.hp.com/us-en/document/c05195282

#### Processors Overview<sup>1,3,4,5</sup>

#### Intel 14<sup>th</sup> Generation Processors:

Intel<sup>®</sup> Core<sup>™</sup> i5-14400 with Intel UHD Graphics (1.8 GHz E-core base frequency, 2.5 GHz P-core base frequency, up to 3.5 GHz E-core Max Turbo frequency, up to 4.7 GHz P-core Max Turbo frequency, 20 MB L3 cache, 6 P-cores and 4 E-cores, 16 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-14500 with Intel UHD Graphics (1.9 GHz E-core base frequency, 2.6 GHz P-core base frequency, up to 3.7 GHz E-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-14600 with Intel UHD Graphics (2.0 GHz E-core base frequency, 2.7 GHz P-core base frequency, up to 3.9 GHz E-core Max Turbo frequency, up to 5.2 GHz P-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

### Overview

Intel<sup>®</sup> Core<sup>™</sup> i5-14600K with Intel UHD Graphics (2.6 GHz E-core base frequency, 3.5 GHz P-core base frequency, up to 4.2 GHz E-Core Max Turbo frequency, up to 5.3 GHz P-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

Intel<sup>®</sup> Core<sup>™</sup> i7-14700 with Intel UHD Graphics (1.5 GHz E-core base frequency, 2.1 GHz P-core base frequency, up to 4.2 GHz E-core Max Turbo frequency, up to 5.3 GHz P-core Max Turbo frequency, 33 MB L3 cache, 8 P-cores and 12 E-cores, 28 threads)

Intel<sup>®</sup> Core<sup>™</sup> i7-14700K (3.4GHz P-Core base frequency, 2.5GHz E-Core base frequency, up to 4.3GHz E-Core Max Turbo frequency, up to 5.5 GHz P-core Max Turbo frequency, 33MB L3 cache, 8 P-cores and 12 E-cores, 28 threads)

Intel<sup>®</sup> Core<sup>™</sup> i9-14900 (2GHz P-Core base frequency, 1.5GHz E-Core base frequency, up to 4.3GHz E-Core Max Turbo frequency, up to 5.4 GHz P-core Max Turbo frequency, 36MB L3 cache, 8 P-cores and 16 E-cores, 32 threads)

Intel<sup>®</sup> Core<sup>™</sup> i9-14900K (3.2GHz P-Core base frequency, 2.4GHz E-Core base frequency, up to 4.4GHz E-Core Max Turbo frequency, up to 5.6 GHz P-core Max Turbo frequency, 36MB L3 cache, 8 P-cores and 16 E-cores, 32 threads)

#### Intel 13<sup>th</sup> Generation Processors:

Intel<sup>®</sup> Core<sup>™</sup> i5-13400 (1.8 GHz E-core base frequency, 2.5 GHz P-core base frequency, up to 3.3 GHz E-core Max Turbo frequency, up to 4.6 GHz P-core Max Turbo frequency, 20 MB L3 cache, 6 P-cores and 4 E-cores, 16 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-13500 (1.8 GHz E-core base frequency, 2.5 GHz P-core base frequency, up to 3.5 GHz E-core Max Turbo frequency, up to 4.8 GHz P-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-13600 (2.0 GHz E-core base frequency, 2.7 GHz P-core base frequency, up to 3.7 GHz E-core Max Turbo frequency, up to 5.0 GHz P-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-13600K (2.6 GHz E-core base frequency, 3.5 GHz P-core base frequency, up to 3.9 GHz E-core Max Turbo frequency, up to 5.1 GHz P-core Max Turbo frequency, 24 MB L3 cache, 6 P-cores and 8 E-cores, 20 threads)

Intel<sup>®</sup> Core™ i7-13700 (1.5 GHz E-core base frequency, 2.1 GHz P-core base frequency, up to 4.1 GHz E-core Max Turbo frequency, up to 5.1 GHz P-core Max Turbo frequency, 30 MB L3 cache, 8 P-cores and 8 E-cores, 24 threads)

Intel<sup>®</sup> Core<sup>™</sup> i7-13700K (2.5 GHz E-core base frequency, 3.4 GHz P-core base frequency, up to 4.2 GHz E-core Max Turbo frequency, up to 5.3 GHz P-core Max Turbo frequency, 30 MB L3 cache, 8 P-cores and 8 E-cores, 24 threads)

Intel<sup>®</sup> Core<sup>™</sup> i9-13900 (1.5 GHz E-core base frequency, 2.0 GHz P-core base frequency, up to 4.2 GHz E-core Max Turbo frequency, up to 5.2 GHz P-core Max Turbo frequency, 36 MB L3 cache, 8 P-cores and 16 E-cores, 32 threads)

Intel<sup>®</sup> Core<sup>™</sup> i9-13900K (2.2 GHz E-core base frequency, 3.0 GHz P-core base frequency, up to 4.3 GHz E-core Max Turbo frequency, up to 5.4 GHz P-core Max Turbo frequency, 36 MB L3 cache, 8 P-cores and 16 E-cores, 32 threads)

#### Intel 12<sup>th</sup> Generation Processors:

Intel<sup>®</sup> Core<sup>™</sup> i9-12900 with Intel<sup>®</sup> UHD Graphics (1.8 GHz E-core base frequency, 2.4 GHz P-core base frequency, up to 3.8 GHz E-core Max Turbo frequency, up to 5.0 GHz P-core Max Turbo frequency, up to 5.1 GHz with Intel<sup>®</sup> Turbo Boost Technology, 30 MB L3 cache, 8 P-cores and 8 E-cores, 24 threads)

Intel<sup>®</sup> Core<sup>™</sup> i7-12700 with Intel<sup>®</sup> UHD Graphics (1.6 GHz E-core base frequency, 2.1 GHz P-core base frequency, up to 3.6 GHz E-core Max Turbo frequency, up to 4.8 GHz P-core Max Turbo frequency, up to 4.9 GHz with Intel<sup>®</sup> Turbo Boost Technology, 25 MB L3 cache, 8 P-cores and 4 E-cores, 20 threads)

Intel<sup>®</sup> Core<sup>™</sup> i5-12500 with Intel<sup>®</sup> UHD Graphics (3.0 GHz P-core base frequency, up to 4.6 GHz P-core Max Turbo frequency, 18 MB L3 cache, 6 P-cores, 12 threads)

Intel<sup>®</sup> Core<sup>™</sup> i3-12100 with Intel<sup>®</sup> UHD Graphics (3.3 GHz P-core base frequency, up to 4.3 GHz P-core Max Turbo frequency, 12 MB L3 cache, 4 P-cores, 8 threads)

<sup>1</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>3</sup> Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. See http://www.intel.com/technology/turboboost for more information.

### **Overview**

<sup>4</sup> Intel vPro<sup>®</sup> requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro<sup>®</sup> Essentials and Enterprise vary. See http://intel.com/vpro

<sup>5</sup> Memory will run at 4400 speed (MT/s) in 2DPC within 1DIMM population; memory will run at 4000 speed (MT/s) in 2DPC within 2DIMM of 1 Rank population and memory will run at 3600 speed (MT/s) in 2DPC within 2DIMM of 2 Rank population

### **Supported Components**

AMD Radeon™ RX 6700 XT 12GB\* Y Y 4C203AA

**NOTE:** Other 3rd Party graphics cards available. Please inquire with your sales specialist or channel partner.

**NOTE:** Z2 G9 Tower with 700W PSU can support up to a 250W professional graphics card from HP, either factory-configured or added via after-market option, and can support up to 320W total graphics power when graphics is factory-configured.

**Note 1:** When dual graphics is configured the 450W and 500W base units will require the AMO HP Z2 TWR Dual Front Fan Kit part number 4N007AA; One storage device configuration for higher than 75W graphics cards (T1000 and up)

Eactory

\* Requires 700W chassis.

#### **NOTE 1:** ECC memory is supported

**DIMMs in a channel** 

**GENERAL NOTE:** Two channels of DDR5 memory are supported. To realize full performance at least one DIMM must be inserted into each channel.

Though the memory modules can run up to 4800MHz, the current platform will support maximum memory speed of 4400MHz.

| The system speed wi<br>Module<br>Configuration | ill be determined by a number of key factors:<br><b>Description of configuration</b>   | Max Memory Speed (Actual Memory<br>speed is dependent on CPU) |
|--|--|---|
| Single DIMM per<br>channel                     | Configurations that contain only one or two<br>DIMM modules with DIMMs only in the black slots   | 4400MHz   |
| Two single ranked<br>DIMMs in a channel        | Configurations with 3 or 4 single ranked DIMMs<br>(8GB and 16GB) installed in a system. Memory<br>speed may also vary depending on vendor<br>module mix. | 4000MHz   |
| Two dual ranked                                | Configurations with 3 or 4 dual ranked DIMMs   | 3600MHz   |

When more than one memory slot is populated, symmetric configurations are required for 2 DIMMs per channel. Mix of different part numbers or mix of single and dual ranks within a channel is not allowed.

And             |

### **Supported Components**

\*\*\*\*Wi-Fi 7 (802.11BE) functionality requires Windows 11 24H2, select Intel® 14th processor, and a Wi-Fi 7 router, sold separately. Wi-Fi 7 is backwards compatible with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported.

#### NOTES:

The integrated network connection is required to support Intel<sup>®</sup> vPro<sup>®</sup> Technology.

If AMT is provisioned, then network teaming with the integrated LAN port is not possible.

"Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

HP Manageability Integration Kit

#### **Notes:**

- 1. Supports, and preinstalled with Windows 10 only. Also available as a free download from http://www.hp.com/go/performanceadvisor
- 2. Windows OS only
- 3. Not available in Russia
- 4. Only available in China
- 5. Only available in Russia
- 6. Not available in China
- 7. Optional Software
- 8. HP Wolf Pro Security Edition is available preloaded on select SKUs, and, depending on the HP product purchased, includes a license with a term length communicated to you at purchase and in your order confirmation email. The HP Wolf Pro Security Edition software is licensed under the license terms of the HP Wolf Security Software End-User license Agreement (EULA) that can be found at: https://support.hp.com/us-en/document/ish\_3875769-3873014-16 as that EULA is modified by the following: 7. Term. Unless otherwise terminated earlier pursuant to the terms contained in this EULA, the license for the HP Wolf Pro Security Edition is effective upon 4 months after the date the HP Product was shipped by HP and will continue for the term communicated to you at purchase and in your order confirmation email ("Initial Term"). At the end of the Initial

### **Supported Components**

Term you may either (a) purchase a renewal license for the HP Wolf Pro Security Edition from HP.com, HP Sales or an HP Channel Partner, or (b) continue using the standard versions of HP Sure Click and HP Sure Sense at no additional cost with no future software updates or HP Support. Notwithstanding the foregoing, the license shall expire no later than one year after the fixed term of the subject license ends.

Operating Systems Windows 11 Pro – HP recommends Windows 11 Pro<sup>2</sup> Windows 11 Home – HP recommends Windows 11 Pro<sup>2</sup> Linux®-ready<sup>5</sup> Ubuntu®4,5

- Intel 12<sup>th</sup> generation processors will support and preinstall Ubuntu 20.02 and 20.04.
- o Intel 13<sup>th</sup> generation processors support and preinstall Ubuntu 22.04 LTS

<sup>2</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.

<sup>4</sup> Not all features are available in all editions or versions of Ubuntu. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS to take full advantage of Ubuntu functionality. Ubuntu may be automatically updated. ISP fees may apply and additional requirements may apply over time for updates.

<sup>5</sup>For detailed Linux<sup>®</sup> OS/hardware support information, see: http://www.hp.com/support/linux\_hardware\_matrix

**NOTE:** Your product does not support Windows 8 or Windows 7. In accordance with Microsoft's support policy, HP does not support the Windows<sup>®</sup> 8 or Windows 7 operating system on products configured with Intel<sup>®</sup> and AMD<sup>®</sup> 7<sup>th</sup> generation and forward processors or provide any Windows<sup>®</sup> 8 or Windows 7 drivers on http://www.support.hp.com. A full list of HP products and the Windows 10 versions tested is available on the HP support website. https://support.hp.com/us-en/document/c05195282

### **Supported Components**

#### **HP BIOS**

#### Additional HP BIOS Features:

• Power-On password – Helps prevent an unauthorized user from powering on the system.

• Administrator password – Also known as the BIOS Setup password, this helps prevent unauthorized changes to the system configuration. If the administrator password is not known, the BIOS cannot be updated and changes cannot be made to BIOS settings using BIOS Setup or under the OS.

• S4/S5 Maximum Power Savings setting supports EU Lot6 requirement and allows the computer to power down below 0.5W in S4/S5 (when turned off). When S4/S5 Maximum Power Savings feature is enabled below features are turned off:

-Power to expansion connectors / slots

-Most Wake events other than power buttons and WOL(Wake on LAN supported by embedded Lan controller under S4/S5 Maximum Power Saving Enabled ) -USB charging ports

#### HP Sure Start Gen7 Start

• BIOS Integrity checking – Sure Start protection ensures that only trusted BIOS code is executed and not rootkits, viruses and malware. Verification is done upon boot up, shutdown and while the system is on.

• Sure Start is set by default to automatically repair the BIOS if corrupted or compromised but is policy driven for better manageability. Start is set by default to automatically repair the BIOS if corrupted or compromised but is policy driven for better manageability.

• Protecting beyond BIOS – Integrity checking and repair is extended to other data that should be protected such as network configuration parameters, platform specific information (i.e. system IDs), secure boot credentials, and other code the system needs to boot.

• Audit enabled – System Audit via Sure Start Event Logs capture data such as incident, repair date and time for troubleshooting and investigating

**NOTE:** HP Sure Start Gen7 is available on HP Workstation products equipped with Intel<sup>®</sup> 12<sup>th</sup> generation processors.

#### **HP Performance Control Modes**

HP Z Desktop Workstations offers Performance Control Modes in the F10 BIOS menu. Z2 G9 offers Quiet Mode, Performance Mode and High-Performance Mode. HP recommends using High Performance Mode unless you have concerns about acoustics in an open office environment. Customers can get up to 41% performance improvements using High Performance Mode over Performance Mode\*. High Performance Mode is configured as default from the factory.

#### How to Set HP Performance Control Modes in HP F10 BIOS Menu

In the F10 BIOS Menu, the setting titled "Performance Control" is adjustable to High Performance Mode, Performance Mode or Quiet Mode. These modes are choice points for performance and acoustic trade-offs based on user needs or recommended balanced conditions in performance and noise optimization.

At startup, push the F10 key while system is booting to get to the BIOS Menu. Go to  $\rightarrow$  Advanced -> System Options ->scroll down and choose "Performance Control"

Set the Performance Mode you desire and then go back to Main->Save Changes and Exit -> Yes The machine will restart in the mode you've chosen.

#### How to change Performance Modes in HP Performance Advisor software?

Select BIOS Settings -> Advanced -> System Options -> Performance Controls

The machine will restart in the mode you've chosen.

## **Supported Components**

You can change these modes anytime you prefer to prioritize acoustics (Quiet Mode), want a balance between performance and acoustics (Performance Mode) or prefer to prioritize performance (High Performance Mode).

For more information on performance control modes, please see the white paper called, HP Performance Control Modes for Z Desktop Workstations.

\*Compared to Performance Mode. Performance improvement based on Z2 Tower G9 with 64GB of memory, 1TB NVMe, Windows 11 22H2 OS, RTX A4000, i7-14700 CPU using Blender OpenData CPU Render and Arnold 2023 CPU multi-core benchmarking.

### Supported Components

HP Tamper Lock HP Sure Admin<sup>17</sup> HP Client Security Manager Gen 7<sup>4</sup> Hood Sensor Optional Kit

<sup>1</sup> HP Performance Advisor Software - –P Performance Advisor is ready to help you get the most out of your HP Workstation from day one—and every day after. Learn more or download at: http://hp.com/PerformanceAdvisor

<sup>2</sup> HP Driver Packs not preinstalled, however available for download at http://www.hp.com/go/clientmanagement.

<sup>3</sup> HP Manageability Integration Kit can be downloaded from http://www8.hp.com/us/en/ads/clientmanagement/overview.html

<sup>4</sup> HP Client Security Manager Gen7 requires Windows and is available on the select HP PCs.

<sup>6</sup> HP Password Manager requires Internet Explorer or Chrome or FireFox. Some websites and applications may not be supported. User may need to enable or allow the add-on / extension in the internet browser.

<sup>7</sup> Microsoft Defender Opt in and internet connection required for updates.

<sup>8</sup> HP Sure Start Gen 7 is available on select HP PCs and workstations. See product specifications for availability.

<sup>9</sup> HP Sure Run Gen5 is available on select Windows 11 based HP Pro, Elite and Workstation PCs with select Intel<sup>®</sup> or AMD processors

<sup>10</sup> HP Sure Recover Gen4 is available on select HP PCs and requires Windows 10 and an open network connection. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. Network based recovery using Wi-Fi is only available on PCs with Intel Wi-Fi Module

<sup>11</sup> HP Sure Click requires Windows 10 Pro or higher or Enterprise. See https://bit.ly/2PrLT6A\_SureClick for complete details. <sup>12</sup> HP Sure Sense requires Windows 11 Pro or Enterprise and supports Microsoft Internet Explorer, Google Chrome™, and Chromium™. Supported attachments include Microsoft Office (Word, Excel, PowerPoint) and PDF files in read only mode, when Microsoft Office or Adobe Acrobat are installed.

<sup>13</sup> HP BIOSphere Gen6 features may vary depending on the platform and configurations.

<sup>14</sup> HP Support Assistant requires Windows and Internet access.

<sup>16</sup> Secure Erase – –or the methods outlined in the National Institute of Standards and Technology Special Publication 800-88 "C"ear" "anitation method. HP Secure Erase does not support platforms with Intel® Optane.

<sup>17</sup> HP Sure Admin requires Windows 11, HP BIOS, HP Manageability Integration Kit from

http://www.hp.com/go/clientmanagement and HP Sure Admin Local Access Authenticator smartphone app from the Android or Apple store.

<sup>18</sup> HP Wolf Pro Security Edition is available preloaded on select SKUs, and, depending on the HP product purchased, includes a license with a term length communicated to you at purchase and in your order confirmation email. The HP Wolf Pro Security Edition software is licensed under the license terms of the HP Wolf Security Software - End-User license Agreement (EULA) that can be found at: https://support.hp.com/us-en/document/ish\_3875769-3873014-16 as that EULA is modified by the following: 7. Term. Unless otherwise terminated earlier pursuant to the terms contained in this EULA, the license for the HP Wolf Pro Security Edition is effective upon 4 months after the date the HP Product was shipped by HP and will continue for the term communicated to you at purchase and in your order confirmation email ("Initial Term"). At the end of the Initial Term you may either (a) purchase a renewal license for the HP Wolf Pro Security Edition from HP.com, HP Sales or an HP Channel Partner, or (b) continue using the standard versions of HP Sure Click and HP Sure Sense at no additional cost with no future software updates or HP Support. Notwithstanding the foregoing, the license shall expire no later than one year after the fixed term of the subject license ends.

<sup>22</sup> HP Wolf Security for Business requires Windows 10 or higher, includes various HP security features and is available on HP Pro, Elite, RPOS and Workstation products. See product details for included security features

|-------------------------------|------------------|---|
|                               | Humidity         | Operating: 8% to 85% RH, non- condensing, 35° C maximum wet bulb<br>Non-operating: 8% to 90% relative humidity, non-condensing, 35° C<br>maximum wet bulb   |
|                               | Maximum Altitude | Operating (with Rotational Hard Drives): 3,048 m (10,000 feet)<br>Operating (with only Solid-State Drives): 5,000 m (16,404 feet)<br>Non-operating: 12,192 m (40,000 feet)<br>Maximum operating temperature is reduced as altitude increases. See<br>Cooling for details. |
|                               | Dynamic          | Shock<br>Operating: ½-sine: 40g, 2-3ms (~62 cm/sec)<br>Non-operating: ½-sine: 160 cm/s, 2-3ms (~105g)<br>square: 422 cm/s, 20g  |
|                               |                  | Vibration<br>Operating random: 0.5g (rms), 5-300 Hz, up to 0.0025g²/Hz<br>Non-operating random: 2.0g (rms), 5-500 Hz, up to 0.0150 g²/Hz  |
|                               | Cooling          | Above 1524 m (5,000 feet) altitude, the maximum operating temperature is reduced by 1° C (1.8° F) for every 305 m (1,000 feet) increase in elevation, up to 3048 m (10,000 feet)  |
|                               | NOTE:            | System enduring or operating beyond the environmental requirement range is not recommended and may compromise system reliability permanently.   |

## **Physical Security and Serviceability**

| Access Panel                               | Tool-less Includes support information   |
|--|--|
| Optical Drive                              | Tool-less, except for Screw-In carrier   |
| Hard Drives                                | Tool-less, except for 2.5" "bay  |
| Expansion Cards                            | Tool-less  |
| Processor Socket                           | Tool-less, except for the processor heatsink   |
| Blue User Touch Points                     | Yes, on tool-less internal chassis mechanisms  |
| Color-coordinated Cables<br>and Connectors | Yes  |
| Memory                                     | Tool-less  |
| System Board                               | Screw-In   |
| Padlock Support                            | Yes (optional): Locks side cover and secures chassis from theft<br>0.22-in diameter padlock loop at rear of system   |
| Cable Lock Support                         | Yes, Kensington Cable Lock (optional): Locks side cover and secures chassis from theft<br>3 mm x 7 mm slot at rear of system   |
| Universal Chassis Clamp<br>Lock Support    | Yes (optional): Locks side cover and locks cables to chassis. Secures chassis from theft and allows multiple units to be chained together when used with optional cable Threaded feature at rear of system   |
| Solenoid Lock and Hood<br>Sensor           | Yes (optional)<br>The Solenoid Hood Lock eliminates the need for a physical key by making the chassis lockable through<br>software and a password. You can also lock and unlock the chassis remotely over the network. The<br>Sensor Kit detects when the access panel has been removed. |
| Rear Port Control Cover                    | No   |
| CPUs and Heatsinks                         | A T-15 Torx or flat blade screwdriver is needed to remove the CPU heatsink before the CPU can be removed. CPU removal is tool-less   |
| Internal Speaker                           | Yes  |
| Power Supply Fans                          | 70mm x 70mm x 25mm 4-wire PWM (non-serviceable)  |
| Access Panel Key Lock                      | No   |
| Integrated Chassis<br>Handles              | Rear Recessed Handle   |
| Power Supply                               | Requires T15 Torx or flat blade screwdriver  |
| PCI Card Retention                         | Yes, rear (all), middle (optional), front (full-length cards with extender)  |
|  |  |

## Service, Support, and Warranty

On-site Warranty and Service<sup>1</sup>: Three-years, limited warranty and service offering delivers on-site, next business-day<sup>2</sup> service for parts and labor and includes free telephone support<sup>3</sup> 8am – –pm. Global coverage<sup>2</sup> ensures that any product purchased in one country and transferred to another, non-restricted country will remain fully covered under the original warranty and service offering. 24/7 operation will not void the HP warranty. Storage devices are not covered under warranty for 24/7 operation except for Enterprise class HDDs.

#### **NOTE 1:** Terms and conditions may vary by country. Certain restrictions and exclusions apply.

**NOTE 2:** On-site service may be provided pursuant to a service contract between HP and an authorized HP third-party provider, and is not available in certain countries. Global service response times are based on commercially reasonable best effort and may vary by country.

**NOTE 3:** Technical telephone support applies only to HP-configured, HP and HP-qualified, third-party hardware and software. Toll-free calling and 24x7 support service may not be available in some countries.

HP Care Pack Services extend service contracts beyond the standard warranties. Service starts from date of hardware purchase. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at:

## System Technical Specifications

http://www.hp.com/go/lookuptool. Service levels and response times for HP Care Packs may vary depending on your geographic location.

#### **Certification and Compliance**

Environmental Sustainability questions concerning:

- Ecolabels (EPEAT, TCO, etc.)
- ENERGY STAR, California Energy Commission (CEC)
- Compliance with Environmental legislation (EU ErP, China CECP, EU RoHS and other countries)
- Supply Chain Social Environmental Responsibility (SER) (conflict minerals; human rights, etc.)
- Product specific environmental features (material content, packaging content, recycled content, etc.)
- China Energy Label (CEL)
- •

#### Please contact sustainability@hp.com

For country specific Regulatory Compliance approval documents or Regulatory and Safety questions concerning:

- Declarations of Conformity (for self-service, go to https://www.hp.com/uken/certifications/technical/regulations-certificates.html?jumpid=ex\_r135\_uk/en/any/corp/hpukmu\_chev/certificates)
- GS Certificates
- Product Safety Certificates (UL, CB, BIS, etc.)
- EMC Certificates, Declarations of Conformity, or Certificates of Conformity (CE, FCC, ICES, etc.)
- CCC Certificates
- Ergonomics

Please contact techregshelp@hp.com

### BIOS

| BIOS 64-bit Services<br>PCI 3.0 Support<br>ATAPI<br>BBS<br>WMI Support                                     | BIOS supports 64-bit Operating systems only.<br>Full BIOS support for PCI Express through industry standard interfaces.<br>ATAPI Removable Media Device BIOS Specification Version 1.0.<br>BIOS Boot Specification v1.01.(Not support)<br>WMI is Microsoft's'implementation of Web-Based Enterprise Management (WBEM) for Windows. WMI is<br>fully compliant with the Distributed Management Task Force (DMTF) Common Information Model (CIM)   |
|--|---|
| BIOS Boot Spec 1.01+<br>BIOS Power On<br>ROM Based Computer<br>Setup Utility (F10)<br>System/Emergency ROM | and WBEM specifications.<br>Provides more control over how and from what devices the workstation will boot.(Not Support)<br>Users can define a specific date and time for the system to power on.<br>Review and customize system configuration settings controlled by the BIOS.<br>Recovers system BIOS in corrupted Flash ROM.   |
| Flash Recovery with<br>Video<br>Replicated Setup   | Saves BIOS settings to USB flash device in human readable file (HpSetup.txt).   |
| SMBIOS<br>Boot Control<br>Memory Change Alert<br>Thermal Alert   | BiosConfigurationUtility.exe utility can then replicate these settings on machines being deployed<br>without entering Computer Configuration Utility (F10 Setup).<br>System Management BIOS 3.4, for system management information.<br>Disables the ability to boot from removable media on supported devices.<br>Alerts management console if memory is removed or changed.<br>Monitors the temperature state within the chassis. Three modes: |
|  | <ul> <li>NORMAL - –ormal temperature ranges.</li> <li>ALERTED - –xcessive temperatures are detected. Raises a flag so action can be taken to avoid</li> </ul>   |

|   | shutdown or provide for a smoother system shutdown.<br>• SHUTDOWN - –xcessive temperatures are encountered. Automatically shuts down the computer<br>without warning before hardware component damage occurs.   |
|---|---|
| Remote ROM Flash  | Provides secure, fail-safe ROM image management from a central network console.   |
| ACPI (Advanced  | Allows the system to enter and resume from low power modes (sleep states).  |
| Configuration and Power<br>Management Interface)  | Enables an operating system to control system power consumption based on the dynamic workload.<br>Makes it possible to place individual cards and peripherals in a low-power or powered-off state without<br>affecting other elements of the system.  |
|   | Supports ACPI 6.0 for full compatibility with 64-bit operating systems.   |
| Ownership Tag   | A user-defined string stored in non-volatile memory that is displayed in the BIOS splash screen.  |
|   | System administrators can power on, restart, and power off a client computer from a remote location.  |
| Shutdown  |   |
| Instantly Available PC  | Allows for very low power consumption with quick resume time.   |
| (Suspend to RAM - –CPI<br>sleep state S3)   |   |
| Remote System   | Allows a new or existing system to boot over the network and download software, including the   |
| Installation via F12 (PXE   | operating system.   |
| 2.1) (Remote Boot from<br>Server)   |   |
| ROM revision levels   | Reports the system BIOS revision level in Computer Configuration Utility (F10 Setup). Version is  |
|   | available through an industry standard interface (SMBIOS and WMI) so that management SW   |
|   | applications can use and report this information.   |
| System board revision   | Allows management SW to read revision level of the system board.  |
| level   | Revision level is digitally encoded into the HW and cannot be modified.   |
| Start-up Diagnostics<br>(Power-on Self-Test)  | Assesses system health at boot time with selectable levels of testing.  |
| Auto Setup when new   | System automatically detects addition of new hardware.  |
| hardware installed  |   |

HP Inc. complies fully with materials regulations. We were among the first companies to extend the restrictions in the European Union (EU) Restriction of Hazardous Substances (RoHS) Directive to our products worldwide through the HP GSE. HP has contributed to the development of related legislation in Europe, as well as China, India, and Vietnam.

We believe the RoHS directive and similar laws play an important role in promoting industry-wide elimination of substances of concern. We have supported the inclusion of additional substancesincluding PVC, BFRs, and certain phthalates—in future RoHS legislation that pertains to electrical and electronics products.

We met our voluntary objective to achieve worldwide compliance with the new EU RoHS requirements for virtually all relevant products by July 2013, and we will continue to extend the scope of the commitment to include further restricted substances as regulations continue to evolve.

To obtain a copy of the HP RoHS Compliance Statement, see HP RoHS position statement.

#### **Material Usage**

This product does not contain any of the following substances in excess of regulatory limits (refer to the HP General Specification for the Environment at

http://www.hp.com/hpinfo/globalcitizenship/environment/supplychain/gen\_specifications.html):

- Asbestos .
- Certain Azo Colorants •
- Certain Brominated Flame Retardants may not be used as flame retardants in plastics
- Cadmium
- **Chlorinated Hydrocarbons**
- **Chlorinated Paraffins**
- Bis(2-Ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP) •
- Dibutyl phthalate (DBP) •
- Diisobutyl phthalate (DIBP)
- Formaldehyde
- Halogenated Diphenvl Methanes
- Lead carbonates and sulfates
- Lead and Lead compounds •
- Mercuric Oxide Batteries
- Nickel finishes must not be used on the external surface designed to be frequently handled or carried by the user.
- **Ozone Depleting Substances**
- Polybrominated Biphenyls (PBBs) •
- Polybrominated Biphenyl Ethers (PBBEs)
- Polybrominated Biphenyl Oxides (PBBOs) •
- Polychlorinated Biphenyl (PCB)
- Polychlorinated Terphenyls (PCT)
- Polyvinyl Chloride (PVC) except for wires and cables, and certain retail packaging has been voluntarily removed from most applications.
- **Radioactive Substances**
- Tributyl Tin (TBT), Triphenyl Tin (TPT), Tributyl Tin Oxide (TBTO)

## System Technical Specifications

| Packaging Usage                            | <ul> <li>HP follows these guidelines to decrease the environmental impact of product packaging:</li> <li>Eliminate the use of heavy metals such as lead, chromium, mercury and cadmium in packaging materials.</li> <li>Eliminate the use of ozone-depleting substances (ODS) in packaging materials.</li> <li>Design packaging materials for ease of disassembly.</li> <li>Maximize the use of post-consumer recycled content materials in packaging materials.</li> <li>Use readily recyclable packaging materials such as paper and corrugated materials.</li> <li>Reduce size and weight of packages to improve transportation fuel efficiency.</li> <li>Plastic packaging materials are marked according to ISO 11469 and DIN 6120 standards.</li> </ul> |
|--|---|
| End-of-life<br>Management and<br>Recycling | HP offers end-of-life HP product return and recycling programs in many geographic areas. To recycle your product, please go to: <a href="http://www.hp.com/go/reuse-recycle">http://www.hp.com/go/reuse-recycle</a> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.  |
|  | The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for<br>each product type for use by treatment facilities. This information (product disassembly instructions)<br>is posted on the Hewlett Packard web site at: http://www.hp.com/go/recyclers. These instructions<br>may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who<br>integrate and re-sell HP equipment.   |

HP qualified drivers may be preloaded or available from the HP support Web site: http://welcome.hp.com/country/us/en/support.html

#### AMD<sup>®</sup> Radeon<sup>™</sup> RX 6400 Form Factor Single slot, Low Profile (2.8" H x **4GB** Graphics 6.3"L) Weight: 155g Radeon<sup>™</sup> RX 6400 **Graphics Controller** Max Power: 53W Cooling Solution: Active axial fan Architecture: RDNA<sup>™</sup> 2 **Bus Type** PCI Express x4 Gen4 Size: 4GB GDDR6 Memory Interface: 64-bit Bandwidth: up to 128 GB/s DP (DisplayPort<sup>™</sup>) 1.4 + HDMI 2.1 Connectors Max simultaneous - up to 4x 5120 x 2880 x 24 bpp @ displays 60Hz **Shading Architecture** Microsoft DirectX 12 Shader Model 5.1 OpenGL<sup>®</sup> 4.6 **Supported Graphics APIs** DirectX<sup>®</sup> 12 Ultimate Vulkan™ 1.1 API support includes: OpenCL<sup>™</sup> 2.2 Microsoft Windows 10 64-bit, Windows 11 64-bit **Available Graphics** Drivers HP qualified drivers may be preloaded or the latest prosumer graphics drivers are available from the AMD.com Notes This is a Prosumer or Consumer graphics card, and not a Professional graphics card. As such, it does not have formal professional application validation, but is intended per AMD to function properly for game development, real-time engine, and many prosumer application workloads. Customers using Prosumer or Consumer graphic cards with axial fan cooling solutions are likely to experience higher acoustics in comparison with Professional graphic cards that use blower fan cooling. NVIDIA® T1000 4GB Single Slot, Low Profile (2.7" H x **Form Factor** Graphics 6.1" L) **Graphics Controller Turing architecture** Max Power: 50 Watts **Cooling Solution: Active fan heatsink** PCI Express 3.0 x16 **Bus Type** Memory 4GB GDDR6 Memory Memory Bandwidth: 160 GB/s Memory Interface: 128 bit Connectors 4x mDP (Mini DisplayPort<sup>™</sup>) 1.4 Connectors

#### \*May go End of Life in late 2022

### Palletization

Ocean Shipping uses a 20' x 40' x 40' (490mm x 295mm x 518mm) container with 4 layers; 2x4=8 pieces per layer for a total of 32 pieces per pallet

Air shipping uses 490mm x 295mm x 518mm carton with 2 layers; 2x4=8 pieces per layer for a total of 16 pieces per pallet.

| Date of change:    | Version History: |         | Description of change:   |
|--------------------|------------------|---------|--|
| March 8, 2022      | From v1 to v2    | Changed | Format   |
| March 16, 2022     | From v2 to v3    | Changed | Social and Environmental Responsibility section                            |
| May 6, 2022        | From v3 to v4    | Changed | Processors, Graphics, Networking and Communications sections               |
| June 1, 2022       | From v4 to v5    | Changed | Operating Systems and SATA Hard Drives sections                            |
| June 15, 2022      | From v5 to v6    | Changed | Networking and Communications section                                      |
| July 1, 2022       | From v6 to v7    | Changed | Graphics section   |
| July 8, 2022       | From v7 to v8    | Changed | System Board section   |
| August 1, 2022     | From v8 to v9    | Changed | SATA Hard Drives, Other Hardware sections                                  |
| August 4, 2022     | From v9 to v10   | Changed | Format   |
| September 1, 2022  | From v10 to v11  | Changed | Storage / Hard Drives, Graphics, Optical and Removable Storage             |
|                    |                  |         | Networking and Communications sections                                     |
| October 1, 2022    | From v11 to v12  | Changed | Graphics, Networking and Communications sections                           |
| November 1, 2022   | From v12 to v13  | Changed | Graphics Adapters section  |
| February 6, 2023   | From v13 to v14  | Changed | Processors section   |
| March 1, 2023      | From v14 to v15  | Changed | Manageability section  |
| March 30, 2023     | From v15 to v16  | Changed | Processors section   |
| April 25, 2023     | From v16 to v17  | Changed | Power Supply, Social and Environmental Responsibility sections             |
| May 1, 2023        | From v17 to v18  | Changed | Other Hardware section   |
| June 1, 2023       | From v18 to v19  | Changed | Graphics, Social and Environmental Responsibility, Palletization sections  |
| July 1, 2023       | From v19 to v20  | Changed | Networking and Communications, Other Hardware, HP BIOS sections            |
| July 5, 2023       | From v20 to v21  | Changed | System Board section   |
| August 1, 2023     | From v21 to v22  | Changed | Social and Environmental Responsibility section                            |
| August 1, 2023     | From v22 to v23  | Changed | ENVIRONMENTAL DATA section   |
| September 15, 2023 | From v23 to v24  | Changed | Networking and Communications  |
| October 1, 2023    | From v24 to v25  | Changed | Graphics, Input Devices sections   |
| November 1, 2023   | From v25 to v26  | Changed | Graphics, Input Devices sections   |
| December 1, 2023   | From v26 to v27  | Changed | Graphics, Other Hardware, Social and Environmental Responsibility sections |
| December 11, 2023  | From v27 to v28  | Changed | Optical and Removable Storage section                                      |
| December 21, 2023  | From v28 to v29  | Changed | Graphics section   |
| February 1, 2024   | From v29 to v30  | Changed | Social and Environmental Responsibility section                            |
| March 1, 2024      | From v30 to v31  | Changed | Graphics, System Configurations, Declared Noise Emissions and              |
|                    |                  | _       | Networking and Communications sections                                     |
| March 12, 2024     | From v31 to v32  | Changed | Processors section   |
| April 1, 2024      | From v32 to v33  | Changed | Graphics and Other Hardware sections                                       |

| May 1, 2024        | From v33 to v34 | Changed | Graphics, Social and Environmental Responsibility sections |
|--------------------|-----------------|---------|--|
| June 1, 2024       | From v34 to v35 | Changed | Storage section  |
| July 1, 2024       | From v35 to v36 | Changed | Graphics, Memory, Networking and Communications sections   |
| July 18, 2024      | From v36 to v37 | Changed | Software section   |
| August 1, 2024     | From v37 to v38 | Changed | Graphics, Memory sections                                  |
| August 1, 2024     | From v38 to v39 | Changed | Graphics section   |
| September 24, 2024 | From v39 to v40 | Changed | Humidity, HP SD Media Card Reader sections                 |
| October 8, 2024    | From v40 to v41 | Changed | Format   |
| October 31, 2024   | From v41 to v42 | Changed | Memory section   |
| November 21, 2024  | From v42 to v43 | Changed | Format   |
| January 2, 2025    | From v43 to v44 | Changed | Networking and Communications                              |
| May 8, 2025        | From v44 to v45 | Changed | Graphics section   |
