

# HP Color LaserJet Enterprise 5700dn Printer

**Powerfully compact. Extraordinarily efficient.**

Transform your workflows with advanced capabilities in a compact footprint. From print speeds to colour panels, get flexible configurations to meet your needs today and tomorrow. All while protecting your business against evolving cyber threats.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
